

Record 200 UFO sightings in UK on one day!

Leading expert on ET contacts, international
bestselling author

Richard Lawrence
explains WHY

According to a recent YouGov poll

- a majority of people now believe in UFOs
- many believe that there is alien life in our own Solar System
- many believe that aliens have tried to communicate with earth
- huge majority believe the Government may be withholding information on UFOs

**“...we’ve been visited on this planet
and the UFO phenomenon is real.”**

recently claimed top astronaut Dr Edgar Mitchell

The new X-Files film holds little interest for a man who has, for decades, been involved in releasing **real X-Files**, including CIA and Russian UFO papers. As a long-term colleague of contactee Dr George King, founder of The Aetherius Society, with whom he co-authored *Contacts with the Gods from Space*, no one is better qualified to explain the unexplainable.

Richard Lawrence is an international bestselling author and former Observer columnist, frequently appearing on TV and radio around the world. Latest media appearances include interviews on Channel Five and This Morning, and a three-hour interview with George Noory, the host of America’s top late-night radio talk show, Coast to Coast AM, which is broadcast to around 500 radio stations in the US and Canada to more than ten million listeners.

UFO fever swept across the UK the night of Saturday 26th July - especially in Devon. Such things may seem way beyond our understanding, but Richard Lawrence, Executive Secretary of The Aetherius Society, is a man who not only believes, but claims to know **why**.

In one of the most amazing so-called “coincidences” of UFO history, just hours before these sightings took place, 135 people from The Aetherius Society had gathered on Holdstone Down in Devon to send “spiritual energy” to the “Gods from space”.

Could it really be that human beings have the power to attract visitors from other worlds?

“Absolutely!” claims Richard.
